GENERAL INFORMATION

CUSTOM STRAPS

Cargo Equipment Corporation specializes in custom tie down straps. We use quality sourced, heavy-duty hardware and webbing in all the straps we manufacture. These custom straps are made to order in the USA to your specifications.

We do not accept returns on custom orders, open bundles, and items that are not in new condition (i.e. clearance items).

A 20% restocking charge will be applied on all other returns.

WARRANTY

The materials and products in this catalog are provided “as is” and without warranties of any kind, whether express or implied. To the fullest extent permissible pursuant to applicable law, Cargo Equipment Corporation disclaims all warranties, express or implied, including, but not limited to, implied warranties of merchantability and fitness for a particular purpose and non-infringement.

PHOTO DISCLAIMER

Photos are shown for informational purposes. Thus, there may be variances in colors, dimensions, perspective, etc. to the final product received.

LIMITATION OF LIABILITY

Cargo Equipment Corporation shall not be liable for any special or consequential damages that result from the use of, or the inability to use, the materials on this site or the performance of the products, even if Cargo Equipment Corporation has been advised of the possibility of such damages. Applicable law may not allow the limitation of exclusion of liability or incidental or consequential damages, so the above limitation or exclusion may not apply to you.

COPYRIGHT

The entire content included in this catalog is copyrighted as a collective work under the United States and other copyright laws, and is the property of Cargo Equipment Corporation. The collective work includes works that are licensed to Cargo Equipment Corporation.

TRADEMARKS

All trademarks, service marks and trade names of Cargo Equipment Corporation used in the site are trademarks or registered trademarks of Cargo Equipment Corporation.

PRICING

All prices are subject to change without notice. If for any reason you are not 100% satisfied with your order and a return is necessary, please advise us of the reason for the return.

PRODUCT RETURNS

Custom straps may not be returned. A 20% restocking charge will be applied on all returned items.

A return authorization must be obtained before returning product. Returns may only be made within 10 days of receiving your order. Shipping charges for the original order are not refundable. You must also pay to ship the products back to us. We suggest using a method that will provide you a tracking number and insurance.

Sorry, but the following items cannot be accepted for returns. They are sold on a Final Sale basis only. No cancellations, returns, refunds or credits are allowed:

• Custom Orders
• Open Bundles
• Items that are not in New Condition.

LTL FREIGHT SHIPMENTS

• Customer must be present at time of the delivery in order to accept the freight
• If freight is not accepted on scheduled delivery date, a re-delivery will need to be authorized
• Re-Delivery fee from the carrier will then be charged to customer’s credit card

TECHNICAL ASSISTANCE

Any technical assistance provided to the Buyer by Cargo Equipment with respect to the use of equipment or supplies furnished to the Buyer shall be without charge. Cargo Equipment assumes no obligation or liability for any such advice, or for any results that may occur as a result of such advice.

The Buyer shall have sole responsibility for selection and specifications of the equipment & supplies appropriate for the end use of such equipment and supplies.
RATCHET STRAPS

BUILD YOUR OWN STRAP

We manufacture ratchet straps with widths of 1, 2, 3 and 4 inches. We also offer 1.25 & 1.5 inch wide ratchet straps. Our assemblies are made to order in the USA using only the most durable, high-quality ratchets and hardware.

Choose from stock sizes or customize in any length, color & hardware you want. We offer in-house stenciling with your logo, name or phone number. Visit our website or contact us for more information.

1 INCH

1-inch ratchet straps are perfect as utility, all-purpose tie downs and powersport applications. Choose straps with coated S-hooks, snap hooks, flat hooks, wire hooks, L-track fittings, E-track fittings and more! See page 13 for more.

1 1/2-INCH

1.5 inch ratchet straps are a unique size in the tie down industry. These straps are made to order in the USA using one and a half inch polyester webbing, currently in 3 colors: black, blue, & white. Our 1.5 inch ratchet straps use a #820 ratchet and either wire hooks or twisted snap hooks. The strap assemblies have a working load limit of 1,666 lbs.

RETRACTABLE RATCHET STRAPS

Easy to use retractable ratchet straps. Choose from 1-inch x 10 feet or 2-inch x 10 feet with S-hooks. Each have a 6-inch fixed end. There is no need to feed straps as the whole strap is self-contained. No more straps flapping in the wind!

PRODUCT SPOTLIGHT

PINK POLYESTER WEBBING - 1, 2 & 4 INCH WIDTHS

We custom make ratchet straps using heavy-duty pink polyester webbing. Choose widths of 1, 2 or 4 inches in any length you need.

REPLACEMENT TREE STAND STRAPS

Made to order in the USA using high-quality materials to secure your tree stand. These straps work on a wide range of tree stands, especially Lone Wolf (left) and River’s Edge (below).
2-inch ratchet straps feature 12,000 lb polyester webbing for heavy-duty, 10k-rated strap assemblies. These straps can be made with flat hooks, wire hooks, snap hooks, delta rings, chain ends, sewn loops and more! We can also make your straps the desired length you need, including both fixed and adjustable ends.

For heavy-duty applications, our 2-inch Python™ webbing provides the longest-lasting, highest wear-resistant ratchet straps!

Our popular ergonomic, black rubber handle ratchet is used in any of our 2-inch ratchet straps. This ratchet pairs especially well with polyester camouflage webbing, part no 747C-2-CAMO.

Choose from over 9 ratchet types, over a dozen end hardware options, and 11 colors. These 2-inch ratchet straps are made to order in the USA to your specifications.

2-INCH PYTHON WEBBING™ RATCHET STRAPS

Python Webbing™ provides the most extreme abrasion and wear-resistance in a heavy-duty 2-inch ratchet strap. Python™ straps have the industry’s best break strength at 12,000 lbs.

These 2-inch ratchet straps are made to order in the USA to whatever length you need. Choose from flat or wire hooks or other hardware options upon request. Available in yellow or gray.

Just like the scales of a python protect it as it moves along the ground or through trees, so does the superior weave of our Python webbing™. It resists abrasion while constricting your cargo.

CAM BUCKLES

CUSTOM TIE DOWNS MADE TO ORDER IN THE USA WWW.CARGOEQUIPMENTCORP.COM
E-TRACK STRAPS
E-Track straps have either a ratchet or cam buckle to tighten your straps. These straps snap directly to E-track and are available in standard & custom sizes. See page 8 for more.

L-TRACK STRAPS
L-Track straps easily attach to L-Track, creating a versatile tie-down system. The straps use the industry’s best ratchet and extra thick 4,000 lb polyester webbing, available in many colors. See page 14.

BUNDLING (ENDLESS LOOP) STRAPS
Endless loop straps in widths of 1 or 2 inches are used to bundle items together, such as chairs, pipe or items on a pallet.

MARINE TRANSOM STRAPS - 2 IN X 5 FT (SOLD IN PAIRS)
Keep your boat secure! These marine transom ratchet straps use #811 ratchet and 2-inch webbing. Available with coated S-hooks or stainless steel ratchet and S-hooks. Sold in pairs.

END HARDWARE COMPONENTS
These are some of the high-quality hardware options we use in our heavy-duty tie-down straps. See our website for more! WLL listed in ( ).

RATCHET STRAPS
Heavy-duty 3 & 4-inch straps are made to order in the USA with flat hooks, wire hooks, chain ends, grab hooks and more! 3-inch strap assemblies have a WLL of 5,400 lbs. 4-inch straps range from 5,400 to 6,670 lb WLL.

ROLL-OFF CONTAINER STRAPS
The DOT has made it mandatory for all roll-off trucks to secure roll-off containers before transport. These heavy-duty 4-inch x 5 foot straps are the perfect solution to secure roll-off containers.

SALT SPREADER STRAPS
Replacement salt spreader straps for brands including Blizzard, Boss, Fisher, Meyer, Swenson, Trynex-Snowex, Western, & more. Including stainless steel.

PATRIOT PACK - RED, WHITE & BLUE RATCHET STRAPS
Includes 2 red, 2 white, & 2 blue 2-inch x 27 or 30 foot ratchet straps plus Cargo Equipment strap storage bag.

CUSTOM STENCILING
Order your ratchet straps with your company’s name, logo and/ or phone number. We can stencil 1, 2, 3 and 4-inch straps (black ink only). Stenciled straps set you apart from the competition, providing a professional appearance that markets to your customers while reducing theft. Visit cargoequipmentcorp.com/custom-stenciling for full details.
WINCH STRAPS — 3 & 4 INCH
Three and four-inch wide winch straps made with flat hooks, wire hooks, chain ends or delta rings. Available with plain webbing or even your customer name/logo!

PYTHON 4 INCH WINCH STRAPS
Our Python Webbing winch straps are built with specially woven 24,000 lb webbing. These straps also have superior resistance to abrasion.

Working Load Limit: 6,666 lbs

PYTHON 2 INCH RATCHET STRAPS
Our superior weave Python webbing resists abrasion while constricting cargo. Python is designed to be superior in toughness and abrasion resistance. Available with flat or wire hooks in yellow or gray webbing.

Working Load Limit: 3,333 lbs

RATCHET STRAPS — 2, 3 & 4 INCH
Our ratchet straps are made with high-quality webbing with heavy-duty, durable hardware.

Choose from flat hooks, wire hooks, grab hooks, snap hooks, sewn loops or chain ends in any length you need.

6,670 LB WINCH STRAPS
We have 24,000 lb webbing and extra heavy-duty hardware to ensure you maximize the capacity of your new winches.

These winch straps have a WLL of 6,670 lbs.

RATCHETING WINCHES
Ratcheting winches reduce load time as well as increase safety. These are available in many styles for many types of trailers.

Turn your ordinary winch into a ratcheting winch with the SilverCap OverDrive ratcheting cap. Part No. 49723-10

WINCH BARS
Our winch bars are tapered and angled at the end for easy operation. We carry standard, combination and box end combination bars. All our winch bars have slip-resistant tips.

We also have ergonomic winch bars that provide a safe, natural feel.

STRAP WINDERS
The Cargo Equipment Strap Winder is a great tool for flatbeds. Simply attach the strap winder to the rub rail and wind up your straps.

Once the strap is wound, slide the strap off the winder and it is ready to store!
TARPS
Our tarps are constructed of 18 oz. black vinyl-coated polyester with UV treatment. The tarps have high-quality grommets and D-rings with protective flaps. The flaps help prevent wear when attaching tarp ties. Our tarps are designed for steel, lumber and machinery transportation but work well for many applications.

</tr>
</tbody>
</table>

3-PIECE TARP
To ease back strain, our 3-piece tarp spreads the weight of heavy tarps into three manageable pieces. Total coverage of 48 feet with an 8 foot drop.

End pieces weigh 79 lbs and the middle piece weighs 69 lbs.

LOAD MEASURING HEIGHT STICK
Our height stick extends to 15 feet, yet collapses to only 65 inches when fully closed. It has an easy-to-read scale with inches on one side and centimeters on the other. This three section, all fiberglass, telescoping pole will save you time and worry.

GRADE 70 TRANSPORT CHAIN
Grade 70 transport chain is available in 5/16, 3/8 and 1/2 inch sizes. We stock lengths of 16, 20 and 25 feet or you can purchase bulk chain by the barrel.

CHAIN BINDERS
We carry a large assortment of chain binders. These include ratchet, lever, recoilless lever and adjustable lever binders. For safer and easier chain binding, check out the QuikBinder Plus ratchet binder and EZ Binder.

EDGE PROTECTION
Edge protectors protect your cargo, straps or chain tie downs from excess wear. These plastic edge protectors also lessen wear and tear on tarps. Edge protectors can be used when hauling products such as drywall and insulation to help from crushing forces of a tightened ratchet strap or winch strap.

According to FMCSA §393.104(f)(4), “Edge protection must be used whenever a tiedown would be subject to abrasion or cutting at the point where it touches an article of cargo. The edge protection must resist abrasion, cutting and crushing.”

EASY TARP REPAIR PATCH
Easy Tarp Repair Patch is a simple, mess-free way to repair tarps in the field. No more downtime waiting for a repair! No messy glues. Clean the tarp, cut patch to size, peel and stick!

Sold in 5-foot patches or 75-foot rolls.
Part No. ETR-BLACK-75

Replacement strap for Quick Draw tarpaulin systems. Sold as pack of 4.

Uses 2-inch, heavy-duty polyester webbing.

EASY PIECE TARP STRAPS (4-PACK)

FLATBED STARTER KITS
Flatbed starter kits provide everything you need to properly secure and cover many different types of loads. We have specially designed kits for lumber and steel as well as chain and binder kits.

FLATBED

Kits include tarps, winch straps (or chains), edge protection, tarp ties and more!

TRUCK SAFETY PRODUCTS
We carry a wide range of truck safety products including safety flags, wide load banners, oversize load banners, height sticks, conspicuity tape and safety cones.

COIL RACKS
Coil racks have a one-piece construction for extra support, handling both light duty and heavy duty applications. Coil racks should be used with lumber blocks to provide extra cradling for the coils. D.O.T. Standards specifically address metal coil securement.

VeeBoards are manufactured from ultra strong, crack resistant, high-density polyethylene and have been tried and tested all over the world. They are light weight, user friendly and long lasting, making them ideal for the rough and tough trucking industry.

VeeBoards are strong enough to hold a load of drums in place, yet flexible enough to bend when the cargo is not a uniform shape. We offer many sizes and colors.

VeeBoards help protect your cargo as well as reduce the wear on your straps.

According to FMCSA §393.104(f)(4), “Edge protection must be used whenever a tiedown would be subject to abrasion or cutting at the point where it touches an article of cargo. The edge protection must resist abrasion, cutting and crushing.”
E-TRACK STRAPS

Our 2-inch E-Track ratchet and cam buckle straps have standard 4-foot fixed ends and are available in color-coded lengths of 12 ft, 16 ft and 20 ft. Save money by purchasing by the box!

We also build E-Track straps to your specifications in various colors, lengths, and other options.

FITTINGS & HARDWARE

We carry E-track fittings with round or delta rings. Our threaded E-track fitting can be used to bolt down seats and other items.

Wood beam sockets work great for inexpensive shoring or shelving.

An E-Track idler is used in 3-point automotive tie downs.

E-TRACK TIE-OFF WITH D-RING

E-Track tie-offs snap directly into the E-Track. They provide an easy and quick way to connect a utility strap with whatever hook into your E-Track system. Sold as six packs and in six colors.

Part No. CE660001X-PK

DECKING BEAMS / SHORING BARS

E-Track decking beams offer a strong and secure way to create decks to double stack products which are unstackable or shore back a load in any trailer containing E-Track.

Our beams are made from extruded high strength aluminum, designed to give maximum strength for the least possible weight.

Light-Duty Aluminum Beams

96-inch: FE8066-1
102-inch: FE8066-3

Heavy-Duty Aluminum Beams

96-inch: FE8000-1
102-inch: FE8000-12

Extra heavy-duty aluminum beams are available.

96-inch: FE8050-6 and 102-inch: FE8050-5

Cargo bars & jack bars are available in steel, aluminum or galvanized steel. The paddle handle and jack bar mechanism are made for everyday use. Local delivery drivers choose steel cargo bars for their quick and easy use.

E-Track is great for toy haulers, landscapers, auto hauling, powersports, enclosed trailers, vans and more! The track can be mounted on the floor or trailer walls.

Powder-coated gray track comes in horizontal lengths of 2, 4, 5, 8 or 10 feet. It is also available in two vertical lengths: 5 and 10 feet.

We carry galvanized steel in two horizontal lengths: 5 and 10 feet. Black powder-coated E-Track is available in 10 foot, horizontal pieces.

Please note that 10-foot sections of E-Track must ship freight.

E-Track systems

CUSTOM TIE DOWNS MADE TO ORDER IN THE USA WWW.CARGOEQUIPMENTCORP.COM
E-TRACK HOOKS AND HANGERS

We designed our own E-track hooks and hangers for many industries to help keep their trailers organized and clean. All of our hooks are easy to use and attach directly into the E-track. They work great for landscapers, tent rental companies, box trucks, tradesmen and dozens of other businesses large and small. The system is competitively priced to also be used in garage, barn and shed organization.

J-HOOKS

J-hooks come in three sizes: small, medium & large. They are great for hanging cords, ropes, hoses, tools and more. The new 2-inch J-hook is great for holding small tools and can also be used in tandem for longer items as well.

GARMENT HANGER - CE6025

Our specialty garment hanger can accommodate heavy clothing, coats, linens, blankets, etc. Use a rubber tie across the bar to prevent items from bouncing off.

SHOVEL HOOK - CE6020

The shovel hook is ideal for hanging rakes and shovels, but can be used for other tools as well.

GARAGE ORGANIZATION

E-track in the garage, shed, or barn is perfect for keeping your equipment organized. We offer several kits to get your started that include track, hooks, and hangers. Easy to install, easy to use, and budget friendly.

STORAGE BAG - CE80017-H

Helps keep straps and parts off the floor and organized. Attaches directly to E-track. Sewn-in handle makes for easy carrying.

TRI-HOOK HANGER - CE6030

The triple-hook hanger is great for cords, small tools, hoses or straps not in use. Individual hooks can hold multiple items.

E-TRACK HANGERS W/ STRAP RING

The built in strap ring loop is designed to help prevent items from bouncing out of the hanger and extra support for heavy objects. The cam buckle strap is designed to be used with E-track hangers with strap rings. Other straps can also be used.

CAM BUCKLE STRAP FOR HANGERS WITH STRAP RING

**ADJUSTABLE LOOP TIE DOWNS - CEAL22XX93X-PK**

Adjustable loop tie-down kits can fit many tire sizes. Kit includes four baskets with adjustable center strap and four ratchets with snap hooks. Other fixed end ratchets available.

Multiple colors available.

**WHEEL BASKET HARNESSSES - CEWN**

Wheel basket harnesses are available in regular and extra-large sizes. They can be purchased with flat hooks, sewn loops or twisted snap hooks. Sold in pairs.

Multiple colors available.

**LASO STRAPS - 22XX93X**

Lasso straps are easy-to-use tie downs that wrap around the wheel. They are anchored to the trailer with a ratchet fixed end (sold separately).

Multiple colors available.

**2-IN X 85-IN TIRE DOLLY STRAP - CETD85Y-00-65**

Outer loop of strap is easily adjustable with a heavy-duty cam buckle.

Dolly strap secures with 2 ratchet fixed ends (sold separately).

Multiple sizes and colors available by request.

**HI-VIS GREEN AXLE STRAP 4 PACK**

Hi-Vis green axle straps feature four (4) ratchet straps with twisted snap hooks on each end and the ergonomic, black rubber-handle ratchet. These straps use an axle strap with delta rings and protective sleeves.

Straps are made to order in the USA using heavy-duty polyester webbing. This 4-pack includes the sturdy Cargo Equipment strap bag with plenty of room for the straps and additional small parts or tools.

Choose your ratchet strap and axle strap lengths.

Multiple colors available by request.

**AXLE STRAPS - AXX42-42X-PS**

Axle straps come with a protective sleeve built in. The heavy-duty delta rings give this assembly a working load limit of 3,333 lbs.

**10,000 LB 2-INCH RATCHET STRAP WITH TWISTED SNAP HOOKS - PART NO. 57XX64X-12**

These 2-inch ratchet straps work with axle straps (above) to secure automobiles to trailers. The twisted snap hooks provide a heavy-duty, solid hold. Assembly Working Load Limit is 3,333 lbs.

**LOW PROFILE TIE-DOWN PACK - CELP22XX93X-PK**

This pack includes four low-profile lasso tie-downs with protective sleeve and #804 ratchet with snap hook.

Other fixed end ratchets are available. Multiple colors!

**WEAR PROTECTION**

- **PS2 - 2-Inch Wear Protector Sleeve**
- **PSF2 - 2-Inch Fuzzy Wear Protector**
The Big Muddy is adjustable for oversize, off-road wheels. The strap uses two (2) twisted snap hooks, an adjustable center strap and a short fixed end to keep the ratchet away from the rim and vehicle. This strap doubles as a regular ratchet strap with the center piece removed. Assembly working load limit: 3,333 lbs.

Shown with E-track & E-track fittings (sold separately).

E-TRACK WHEEL STRAPS - 51XX11X-6AUTO1

Wheel straps use a 3-point system to secure each tire to the track or trailer. The webbing is fed through an adjustable “idler”. Available with rubber cleats to keep the strap from shifting.

See page 8 for E-track Systems

L-TRACK WHEEL STRAPS - 51XX08X-6AUTO1

OFF-ROADING

2-INCH RATCHET STRAP FIXED ENDS - 5799XXX-12

Ratchet strap fixed ends are used to attach lasso straps, exotic car tie downs, RTJ cluster straps, etc.

We have numerous hardware to choose from as well as several color options.

See page 14 for L-track Systems

**TENT STRAPS**

- Our tent straps are made to order in the USA. Choose whatever length and end hardware you need for your tent application.

**2-INCH RATCHETING TENT STRAPS**

- These 1-inch black ratcheting tent straps are designed to last for years! We use high tensile polyester webbing, designed for outdoor applications. Polyester's high strength, UV resistance, and durability make the best choice for tent tie downs.

- These use a #FE8400-1 Double Bar D-Ring on the fixed end and a #3141Z Bull Nose Snap Hook on the adjustable end.

**BLOCK AND ROLL® TENT STRAPS**

- Block And Roll® Tent Ballast Solutions provides an innovative way to move cement tent ballasts. In recent years the demand for weighting tents has increased. The system allows for easy, safe handling with or without a forklift.

**RATCHET COVERS - 1 OR 2 INCH**

- White-vinyl ratchet covers conceal 1-inch or 2-inch ratchets for a streamlined, clean look.
  Part No. TRC-1 or TRC-2

**2-INCH LASHING WINCH**

- Versatile lashing winch can be welded or bolted in place like a standard winch, but offers the quick release and easy operation of a ratchet buckle. Will hold approx 30 inches of 2 inch wide tie down webbing. Available with welded-on stake plate (1880-WP).

**BLACK TENT STRAPS**

- 2-inch black ratcheting tent straps use high tensile polyester webbing which is designed for outdoor applications. Polyesters high strength, UV resistance, and durability make the best choice for tent tie downs.

- These straps use the 2-inch black ratchet with rubber handle #804BR and heavy-duty black polyester webbing.
1-INCH UTILITY STRAPS
High-quality, 1-inch utility straps are not what you will find in the box stores. These straps are perfect for powersports and double as everyday tie-downs for whatever you need secured. Our straps are made to order in the USA and use heavy-duty 4,000-pound polyester webbing. Unlike nylon, polyester has a minimal amount of stretch. Our hardware is sourced and tested to be strong and durable. Choose from a wide range of hardware options and colors. Assembly working load limits vary depending on hardware.

We manufacture many types of 1-inch ratchet straps in countless lengths and hardware options. Contact us with your specifications.

1-INCH RATCHET STRAP WITH WIRE HOOKS AND D-RINGS
Ratchet straps have wire hooks and D-rings on both ends. Use as a “standard” tie down or use the D-rings to wrap around a solid object. These are especially useful in rental trucks where wooden beams are often found.

1-INCH STAINLESS STEEL RATCHET STRAPS
Our 1-inch, stainless steel ratchet straps use stainless steel ratchet and hardware plus extra-thick 4,000 lb polyester webbing, available in many colors.

Marine straps use either stainless steel wire hooks or stainless steel S-hooks.

Avoid premature rust when using these ratchets in wet areas, including salt water.

LIGHT-DUTY STRAPS
Various 1-inch light duty straps to secure lighter cargo such as luggage, canoes, kayaks, etc. The perfect choice for camping and traveling to your next adventure!

1-INCH COMBINATION SOFT-TIE/S-HOOK WITH KEEPER RATCHET STRAP
This combination strap works great with motorcycles, UTVs and more! Wrap the strap around and use the S-hook with keeper to attach to the sewn-in soft-tie loop. Use as a regular ratchet strap when the soft-tie is not needed.

These straps are made with our sleek 812B black ratchet and 1101KP vinyl-coated S-hook with keeper on both ends. Choose from 12 color options, including our one-of-a-kind black reflective webbing.
Q’Straint and Sure-Lok are the leading manufacturers of wheelchair securement and occupant restraint systems. Together, these manufacturers cover around 95% of all wheelchair restraints on the market and have over 50 years of combined experience.

These wheelchair tie down systems are ADA compliant and thoroughly tested for safety.

We sell a wide range of both brands for L-track and A-track.

Whether you need the QRT 360, QRT Max, Titan800, individual retractors, restraint belts or more, we can help you out.

Choose from many accessories and L-track in lengths of 100, 92, 46, and 8 inches.

CUSTOM TIE DOWNS MADE TO ORDER IN THE USA www.cargoequipmentcorp.com
POLYESTER TOW AND RECOVERY STRAPS

Heavy-duty tow straps come in webbing widths of 2, 3, 4, 6, 8, 10 and 12 inches. Our recovery straps are manufactured in the USA with single or double ply. Double ply adds extra capacity and additional plys may be added for increased capacity. Optional wear pad on body is available.

DYNEEMA TOW ROPE

Dyneema tow ropes are a lightweight yet strong alternative to polyester tow straps. The ropes pack tighter and travel lighter so you can always have them with you.

Dyneema ropes are perfect for farmers, ranchers, construction workers, off-road enthusiasts, snowmobilers, trail riders and more!

DYNEEMA TOW ROPE

- Keep strap away from abrasive vehicle components or sharp corners
- Store in a serviceable location that is easy to access
- Make sure you use proper equipment to optimize use and lengthen strap life
- Check condition before using for any frays, cuts or broken stitching
- Follow included care instructions and clean strap properly after use.
- Straps should be stored away from sunlight or other heat forms
- Embedded dirt in tow strap can wear down fibers over time, weakening it

TOW STRAP STORAGE & MAINTENANCE

TOWING & RECOVERY

SCREW SACKLES

Our screw shackles are available in sizes ranging from ¼ inch to 1 ½ inch. They are made of forged carbon steel with a galvanized finish.

Use a shackle instead of a questionable attachment point that may damage the tow strap.

LIFTING SLINGS

FLAT EYE & EYE LIFTING SLINGS

Flat eye and eye lifting slings are made with a flat loop eye on each end. The slings have a loop eye opening on the same plane as the sling body.

This type of sling goes by a variety of names including flat eye and eye, eye and eye and double eye sling. These slings are versatile and flexible. They can be used with all three hitches: vertical, basket and choker.

TWISTED EYE LIFTING SLINGS

Twisted eye lifting slings feature half-twist loops that make the slings exceptionally useful for basket and choker hitches. They are available in widths of 1 to 12 inches and nearly any length.

SCREW SCHAFFLES

Our screw schackles are available in sizes ranging from ¼ inch to 1 ½ inch. They are made of forged carbon steel with a galvanized finish.

</table>

All slings should be carefully inspected before every use and immediately taken out of use if any wear is detected.

WARNING Failure to protect sling from cutting may result in damage, injury or death.
ENDLESS LIFTING SLINGS

Endless lifting slings are made with a continuous loop that is formed by joining ends of the webbing together with a load-bearing splice. They are extremely durable and versatile and avoid using one constant bearing point. This increases the life of the sling.

Our lifting slings are made from high-quality 9,800 lb polyester webbing for maximum safety. These slings are lightweight, flexible and easy to adjust to the load. Our slings will not mar, deface or scratch the most highly polished metal surface and is equally gentle for non-metallic loads.

Endless lifting slings are unaffected by mildew, rot or bacteria, and have excellent abrasion resistance. All are treated to repel moisture and dirt, and to reduce the effects of abrasion.

All of our slings are made in the USA and contain a rating tag sewn into every sling.

BRIDLE LIFTING SLINGS

Bridle lifting slings are available with single, double or quadruple legs. The slings have oblong top master links with sling eye hooks for their bottom fittings. Choose between single or double ply, depending on your capacity requirements. Available in many lengths.

ENDLESS ROUND LIFTING SLINGS

Endless round lifting slings are color-coded to distinguish between weight capacities. See the chart at right for size/capacity you need.

These slings provide an easy and effective way to lift objects. They are constructed with a continuous loop of 100% polyester which encases and protects the load-bearing fibers. Each sling also has a tough, resilient tag making it easy to identify weight capacities.

Our slings are available in various lengths with capacities ranging from 2,100 lbs to 80,000 lbs. (See chart.)

WARNING  Failure to protect sling from cutting may result in damage, injury or death.
